# LADY RIDGEWAY HOSPITAL, COLOMBO 08 Department of Chemical Pathology <br> Request form for special biochemical investigations 

Lab reference number

| Name | : ................................. | BHT/Clinic No |  |
| :---: | :---: | :---: | :---: |
| Age | : ................................ | Ward/Clinic |  |
| Gender | $: \mathrm{M} \quad \square \quad \mathrm{F} \quad \square$ | Tel No of patient |  |
| Date of birth | : ................................ | Specimen : | : VENOUS BLOOD IN 2CC EDTA TUBE |

Fasting status : $<4 \mathrm{Hrs} \square 4 \mathrm{Hrs}$ 6 Hrs ..... $\square$Relevant clinical history \& examination findings:
$\qquad$
$\qquad$
$\qquad$
$\qquad$
Drugs : $\qquad$

## PLASMA

$\square$

## Homocysteine

Name and designation of the requesting medical officer : $\qquad$

Date:

To be filled by the nursing officer Date \& time of sample collection :

Name :

To be filled at the laboratory reception
Date \& time of sample receipt Lipae- $\square$ mic $\square$ Hae- $\square$ molyzed $\square$ Icteric $\square$ Insufficient

Please follow the instructions provided overleaf. For further information and clarifications please contact Department of Chemical Pathology 011-2693711 Ext 314

## Instructions for patient preparation aood sample collection

## PLASMA HOMOCYSTEINE

## Patient Preparation - Fasting

| Children $>3$ y ears | $: 4-6 \mathrm{hrs}$ |
| :--- | :--- |
| Children $>1 \mathrm{yr}-3$ years | $: 3 \mathrm{hrs}$ |
| Infants | $:$ Just before the next feed |

## 

ஆகாரமின்றி இருப்பதற்கான தயார்ப்படுத்தல்

```
சிறுவவர் >3 வயபது
சிறுவர் > 1 வயது - < }3\mathrm{ வயதது: : hrs
குழந்றைை : அடுத்த தாப்ப்பால்) கொடுக்க சர்று முб்亍
```

| Collection Container | Tube containing EDTA |
| :--- | :--- |
| Sample Volume <br> Collection and transport instruc- <br> tions | Sample should be taken without <br> a tourniquet. Once the sample is <br> transferred to the tube, mix it <br> well and transport it in the oce <br> to the laboratory ionmediately. |
